

# ***Intelligence Management Workshop***

*(2 days)*

## **Target Audience:**

Supervisors and management of the intelligence function in all organisations, whether it is national security, defence, law enforcement, compliance, risk or business.

*NQF Level 6  
Fees: R4000 (ex VAT)*

14 & 15 May 2009

## **Aim of workshop**

The Intelligence Study Centre (ISC) designed a special workshop-length program intended for intelligence unit supervisors, as well as for line managers and executives who are clients and users of intelligence services. The objective of the workshop is to familiarise participants with the processes of intelligence, focusing on how to task, manage and monitor the activity and assess performance. This workshop is the ***international standard*** in strategic intelligence analysis training and has been taught over 5 continents. 4Knowledge is proud to be associated with Don McDowell and acts as his facilitator/agent in Africa. Don has served in various management positions in the national security, compliance, law enforcement and business intelligence environments.

## **Course outcomes**

The focus of the workshop is centred on the following:

- The intelligence process, role and functions of the analyst
- Establishing the intelligence unit
- The intelligence supervisor - including managing the intelligence activity
- The client - including tasking, monitoring and assessing performance of intelligence services

## **Certification**

Attendees will receive a Certificate of Attendance from the Intelligence Study Centre.
